

GROUP 2 TASKTREK: LEVELING UP THROUGH AN APPLICATION FOR GAMIFYING TASKS IN
VARIOUS ASPECTS OF LIFE WITH AI-POWERED TASK SUGGESTIONS

SITEMAP DESCRIPTION

- The website opens with a landing page leading to the login/sign-up screen. Users can create an account with email and password or log in via Google, Facebook, or Apple. Both pages allow easy switching between login and sign-up.
- After logging in, the Task tab displays today's date with calendar navigation. Selecting a date shows tasks with their point values, plus filters for in-progress and completed tasks.
- The Activity tab shows team members' accomplishments and claimed rewards.
- The Shop menu lets users redeem points for custom rewards. Higher costs reflect more valuable rewards, such as buying a new outfit, watching a movie, or staying up late. This system motivates users to complete tasks and stay productive.
- The Groups menu allows users to create or join groups, helping organize responsibilities across different areas of life.
- The Profile page displays total points, tasks completed, badges, medals, and leaderboard rank, giving a clear view of progress and achievements.
